Disposable Laparoscopic Specimen Bags

The self-opening, high-strength bag with introducer ensures safe specimen capture with easy, one-handed operation. This sterile, single use specimen container is designed for use in retrieving specimens during endoscopic surgery. It is supplied in a dispensing tube for ease of insertion through a 10, 11, or 12 mm trocar cannula.

Unique Design

The unique patented design provides comfortable ergonomics, and can be deployed and manipulated with one hand. The large bag resists tearing, reducing the potential for cell migration.

Easy to Use

Indicators on the introducer indicate the opening (top) of the bag for correct placement. Bag can be detached within abdominal cavity for later retrieval.

- Minimal insertion force enables smooth deployment
- Insert indicator ensures bag will be in proper position when deployed
- String with slip knot facilitates closure of the specimen bag
- Self-opening bag design provides easy and safe specimen capture
- High strength polyurethane bag material assures no leakage

Detachable Laparoscopic Specimen Bags

The detachable disposable specimen bag is supplied with an introducer and bag for ease of insertion through a 10, 11, or 12 mm trocar cannula.

Independent Memory Wire Bag

Disposable specimen bag with memory wire in a dispensing tube for ease of insertion through a standard 10, 11, 12 mm cannula.

Expose® Single-Use Inflatable Retractors

The inflatable paddle provides soft, atraumatic tissue contact, while the cushioned surface can control a large tissue area without pinching. The non-conductive polymeric surface insulates and helps protect tissue from electrosurgical injury.

Triangle and U-shapes

Irrigation/Aspiration Needles

The sharp needle allows for easy, atraumatic penetration. One time use eliminates processing. Compatible with syringe attachment using the luer lock with stop cock.

40cm length, 16 and 22 gauge

Reusable Retractors

These retractors are designed for durability and easy cleaning and sterilization. Use for a wide range of applications. The atraumatic contact surfaces reduce risk of tissue damage, and the non-glare surface minimizes light source reflection.

Flat, curved and angled triangle shapes

Puncture Closure Device (Trocar Wound Closure)

Allows full closure of peritoneum and fascial layers through the trocar. Exchangeable through trocar cannula for easy port closure while maintaining pneumoperitoneum. The “J” shaped suture placement needle minimizes risk of organ and tissue injuries.

Accommodates both braided and monofilament absorbable sutures, up to size 1.

Kittner Blunt Dissectors

Convenient, cost-effective packaging houses these sponge and blunt tip probes. Unique dual tip saves time and reduces costs. Non-absorbant radiopaque tip.

40cm length

Anti-Fog Kit

This water-based solution reduces fogging of scopes. Includes adhesive-backed sponge with radiopaque ribbon.

Ordering Information

Product	Description	Packaging	Catalog Number
Anti-Fog Kit	6cc anti-fog solution vial, sponge single-use, sterile	1/pkg, 10/cs	CD003
Expose® Inflatable Retractors	Triangle-shaped, 10mm, single-use, sterile	1/pkg, 5/cs	IT0010
	U-shaped, 10mm, single-use, sterile, Cannula 10-12mm	1/pkg, 5/cs	IU0010
Irrigation/Aspiration Needles	16 gauge needle, 5mm x 40cm, single-use, sterile, Cannula 5-10mm	1/pkg, 5/cs	CD950
	22 gauge needle, 5mm x 40cm, single-use, sterile, Cannula 5-10mm	1/pkg, 5/cs	CD952
Kittner Blunt Dissectors	Single tip Kittner, 5mm x 40cm, single use, sterile	1/pkg, 5/cs	CD801
	Dual tip Kittner, 5mm x 40cm, single-use, sterile	1/pkg, 5/cs	CD802
Luer Port Cap	Universal Luer Port Cap, non-sterile	5/pkg, 1/box	CD203
Puncture Closure Device (Trocar Wound Closure)	10mm, single-use, sterile, Cannula 10-12mm	1/pkg, 10/cs	PCD-10
Reusable Retractors	Flat kite shaped, reusable, 5mm x 41cm, Cannula 5-10mm	1 each	MK0005
	Curved kite shaped, reusable, 5mm x 41cm, Cannula 5-10mm	1 each	MC0005
	Angled kite shaped, reusable, 5mm x 41cm, Cannula 5-10mm	1 each	KM0005

Specimen Bags	Diameter	Length	Volume	Cannula	Packaging	Catalog Number
Independent Memory Wire Bag	3in (7.62cm)	6in (15.24cm)	250ml	10-12mm	1/pkg, 10/cs	SB836
Independent Memory Wire Bag	5in (12.7cm)	7in (17.78cm)	500ml	10-12mm	1/pkg, 10/cs	SB857
Attached Memory Wire Bag	3in (7.62cm)	6in (15.24cm)	250ml	10-12mm	1/pkg, 5/cs	SB936
