

**NEW** for Biceps Tenodesis

# “Why TenoLok™?”

***No Tendon Wrap,  
No Tendon Damage,  
No Threads,  
No Whip-Stitching”***

When it comes to tendon preservation, *Dr. Joseph Tauro* of *Ocean County Sports Medicine* uses CONMED's new TenoLok™ Dual-Expanding Tenodesis anchors as his go to anchors for tenodesis repairs.

“*The dual fixation feature of TenoLok anchors provide secure engagement in bone without causing the tendon damage that I have seen with interference screws.*”

**Dr. Joseph Tauro**  
Ocean County Sports Medicine

**TenoLok™**  
Dual-Expanding  
Tenodesis Anchor

**AAOS 2017 Annual Meeting  
Booth 2133**

*To schedule a demonstration, call customer service 800-448-6506 or visit [srs.conmed.com/tenolok](http://srs.conmed.com/tenolok) to see videos and get more information.*

**Cross Section  
with Tendon**

*TenoLok™ anchors expand to 7.5mm in the cortex and 10mm sub-cortically for secure fixation.*
